25. Description of Major Duties and Responsibilities (See Attached)

ENTOMOLOGIST

GS-0414-07

INTRODUCTION

This advanced trainee level is part of a GS-5/7/9/11/12 career ladder for an Entomologist in an FDA/ORA field laboratory. The incumbent, as a part of a planned career development, receives formal and on-the-job training, working with and assisting senior regulatory scientists in the performance of a variety of analyses and experiments necessary for carrying out the mission and functional responsibilities of the FDA. The incumbent is eligible for non-competitive promotion dependent upon meeting applicable qualification requirements and satisfactory demonstration of the ability to perform the duties at the GS-9 level.

MAJOR DUTIES

- Performs varied but relatively routine and limited entomology and tests on samples submitted by agency personnel to the field laboratory. The analyses and tests are to determine the composition of substances, presence and identification of filth in food, or compliance of a drug with pertinent quality standards. The results are used by agency personnel for regulatory monitoring and enforcement purposes.
- On the basis of experience and training applies a wide variety of tasks such as selecting samples, interpolating missing data, uncovering clear discrepancies, solving minor problems, and performing analyses in support of projects assigned to higher level scientists.
- Records in detail, the receipt, handling and analysis of samples, including observations, measurements, and computations. If directed, prepares exhibits to illustrate the results of analytical work.
- Participates in firm inspections with an experienced investigator and/or regulatory scientist in a training capacity to assist, observe and evaluate manufacturing processes, practices and conditions.

Factor 1 - Knowledge Required by the Position (FL 1-6 = 950 points)

Professional knowledge of the scientific principles, theories, and practices applicable to the entomology to which the incumbent is assigned.

Knowledge of common methods and procedures, and a skill in calibrating and operating analytical instruments sufficient to perform relatively routine and limited analyses and tests by applying established methods and procedures.

Factor 2 - Supervisory Controls (FL 2-2 = 125 points)

The supervisor assigns individual samples with clear instructions as to the data to be obtained. For new or more difficult assignments, the supervisor also provides instructions as to the

methods and procedures to apply and the location of source material available for reference. The incumbent is responsible for independently completing recurring assignments, but refers all deviations and problems not covered by the instructions to the supervisor or a higher level scientist for assistance. The work is reviewed for adherence to instructions and standard laboratory procedures and for technical soundness of the results. New or more difficult assignments are reviewed including in-progress review.

Factor 3 - Guidelines (FL 3-2 = 125 points)

The methods and procedures for performing the work are established. Specific guidelines such as established methodology manuals, precedents, and standard operating procedures are available for reference. For each sample, the Entomologist must exercise judgment to select the appropriate methods and procedures to carry out the analyses and tests. Situations in which the guides do not apply are referred, typically with a recommended action, to the supervisor or a higher level scientist.

Factor 4 - Complexity (FL 4-3 = 150 points)

The assignments involve a variety of analyses and tests. The incumbent exercises judgment in selecting the appropriate methods and procedures, which requires recognition of the existence of and differences among the identity of the sample, its physical state, and the data specified to be determined. The work can be performed by applying established methods and procedures and usually any problems encountered can be solved by minor method modification or adaptation.

Factor 5 - Scope and Effect (FL 5-2 = 75 points)

The work involves carrying out established scientific analyses and tests of foods, drugs, and cosmetics according to specific guidelines. The work efforts affect the accuracy and reliability of the scientific analytical services provided by the laboratory.

Factor 6 - Personal Contacts (FL 6-2 = 25 points)

The personal contacts are with scientists and technicians within the laboratory and field investigators and inspectors.

Factor 7 - Purpose of Contacts (FL 7-1 = 20 points)

The personal contacts are to receive advice and assistance, to obtain and clarify information and to report the progress and results of the work.

Factor 8 - Physical Demands (FL 8-2 = 20 points)

The work requires prolonged standing, lifting of large or heavy samples or equipment. Work may involve exposure to chemical and biological hazards that may require special safety precautions. The Entomologist may need to use protective clothing and equipment. Persons with physical limitations may, as appropriate, be accommodated by other employees.

To perform the work of the position, the employee must possess a valid driver's license in order to drive a Government or privately owned motor vehicle to inspections and investigations.

Candidates for this position must complete a statement regarding their physical ability and may be required to undergo physical examination because the position requires:

- the need to work long and unscheduled hours;
- exposures to all kinds of extremes of weather and noise;
- the need to lift heavy objects up to 50 pounds, walk, bend, stand, stoop, kneel, and climb;
- the need to meet the vision, hearing and olfactory requirements necessary to perform the work of the position; and
- the need to travel, as required by management needs, may require the incumbent to be away from the regular duty station for up to two to three weeks at a time.

Factor 9 - Work Environment (FL 9-2 = 20 points)

The work involves regular and recurring exposure to irritant chemical and biological hazards. Special safety precautions are required, and the Entomologist may be required to use protective clothing and gear such as a laboratory coat, safety glasses, latex gloves, mask, etc.

When serving as an Investigator, inspection and sample collection duties are performed either inside buildings and other structures, outdoors or both depending on the type and location of the facility. As a consequence, employees are exposed to a variety of environmental conditions including extremes of heat, cold or humidity; excessive noise; excessive dust; uneven surfaces and slippery floors; and extremely adverse conditions during natural and other disasters such as floods, fires, hurricanes, etc. During these periods, employees must eat and sleep in primitive conditions with little or no privacy. As Investigators, incumbents must travel into and work in areas that have been the subject of violence and that are otherwise considered unsafe.

TOTAL POINTS: 1510

GRADE CONVERSION: GS-07 (1355-1600 point range)

CHECKLIST

Date:

7/6/2011

A. REQUIRED POSITION INFORMATION:

Position Title: Entomologist
Pay Plan/Series/Grade: GS-414-5 & GS-7 (e.g. GS-0301-12)
Organization: HHS, FDA, ORA, ORFDD, Field
Laboratory
Any Field Laboratory
Administrative Code: (e.g. GAGA)
PD Number: 11F025 (e.g. HQ1234)

B. NON-EXEMPT CRITERIA (5 CFR 551.203)

Position classified at GS-04 or below
 Meets one of the requirements for nonexempt.
Explain: _____

C. EXEMPTION CRITERIA

1. Executive Exemption Criteria (5 CFR 551.205)

A. Primary duty of position is management or supervision.
 Meets requirements of management or supervision position.
OR
 B. Meets 80% Test (Alternate to A. - applies to certain positions only).
 Meets requirement of 80% Test

Explain: _____

2. Administrative Exemption Criteria (CFR 551.206)

A. Primary Duty is Management, General Business Functions, or Supporting Services.
 Meets requirements of Administrative Exemption Criteria
OR
 B. Meets 80% Test (Alternate to A. - applies to GS-05 and GS-6 - see below).
 Meets 80% Test

Explain: _____

3. Professional Exemption Criteria (5 CFR 551.207, 208, 209, 210)

A. Primary Duty is Work Requiring Advanced* Knowledge in a Field of Science or Learning. Note: "Advanced" means education above high school level.
OR

B. Meets 80% Test (Alternate to A. - applies to GS-05 and GS-6 - see below).

Explain: _____
